THE VIZCAYA.

Christian Endeavor Social

The Christian Endeavor Society of the First Presbyterian Church will give a social at the home of Miss Crusoe on Bancroft way, Friday evening. One of the things had in view will be the making of comfort bags for the sailors on the deep sea vessels, for whom the Endeavorers of Alameda county are working.

At Rest in Peace

The last sad rites were paid to the infant daughter of Rev. and Mrs. George E. Swan, and services were held this afternoon at 2 o'clock in St. Marks Church. This tiny baby had only seen twenty-three days of this life when God took her to himself. She was stricken with malignant erysipelas and in spite of all that medical skill could do the little one was taken after five days of illness. She suffered greatly until the last, when she passsd peacefully away as if to sleep.

Funeral service was conducted by the Rev. Dr. McClure of Oakland. Interment will take place at Oak Hill Cemetery, San Jose, where Rev. Swan will take the remains tomorrow morning. He will be accompanied by his son Fletcher, and sister, Mrs. C. J. Nelson, The floral offerings were many and beautiful. The pall-bearers were four little boys: Warren Meyers, Hugh McJunken, Robert Van Sant and Milton Wilder.

Important Missionary Conference

The quarterly meeting of the Congregational Woman's Missionary Union has been in session in the First Congregational church all day, but owing to some misunderstanding in making the announcement in the various churches about the bay, the attendance was very small. The subject of missions in their various forms were discussed from all sides, and those present enjoyed a "feast of reason and a flow of soul." Following is the program:

10:30, opening exercises; paper, "Is the Missionary Society Helpful to the Church?", Mrs. E. Plant; report of treasurer, Mrs. Haven; report of corresponding secretary, Mrs. Perkins; intermission; 1:30, devotional exercises, Mrs. Adams; report from field secretary, Miss Porter; paper, "Loyalty to our National Societies", Mrs. O. Lucas; vocal solo, Mrs. Gertrude Moore Mills; talk, "Chinese Work", Mrs. Green.

At noon the Theodora society served lunch in the Sunday School room, which they had decorated beautifully for this occasion. The young ladies charged fifteen cents, and instead of going elsewhere those present patronized the society and the Theodora society will add ten dollars to their missionary fund.

The young ladies in charge were Misses Lulu Mills, Mabel Reed, Edith King, Louise McKee, Georgia Barker, Ella Bonnell, Edith Crawford, Annie Mason, Jeanette Ellison, Edna Woolsey, Jennie Gilbert, Mabel Fisher, Ava Earle and Mrs. J. S. Mills.

Hilo Enriched by Berkeley's Loss.

Dr. Cruzan Will Serve in that Foreign Field.

Last night was the time appointed for the regular business of the North Berkeley Congregational Church, and the resignation of the Rev. J. A. Cruzan was accepted. Rev. Mr. Cruzan has been pastor of this church for the past year and enjoys the respect and love of his entire congregation, and it is with many a regret that they let him go.

A committee of six was appointed to provide for another pastor. They were F. F. Connor, Rev. J. K. Harrison, O. G. May, Fred Peake, Mrs. John McCarthy and Mrs. J. T. Farrar.

John McCarthy was elected trustee to fill the vacancy caused by the resignation of Mr. Phipps, who has moved away from Berkeley.

Rev. J. A. Cruzan, pastor of the North Berkeley Congregational church, has accepted a call to the Foreign church at Hilo on the Island of Hawaii. Hilo is 250 miles from Honolulu.

Rev. and Mrs. Cruzan and their youngest son, Donald, expect to sail some time in August. They are to leave Harold, the eldest son, in school at Belmont where he is to remain two years. Miss Cruzan will remain in San Francisco where she expects to pursue a year's musical study.

Those Strange Marks Appear Again.

But This Time Marshal Lloyd Detects the Miscreant.

Yesterday Marshal Lloyd detected a one-legged man peddling envelopes and noticed that he wrote something on the door frames of a number of houses. After watching for some time the Marshal stopped him and found the mark to be a letter E with some fancy flourishes about. He was ordered out of town and threatened with arrest if he was seen here again. Berkeley people will remember the excitement that was caused about a year ago when marks were found on so many doors and posts. This is almost the same mark and might have caused much alarm had not the man been caught by Marshal Lloyd. What could have been his motive is not known and when Mr. Lloyd accosted him he denied having made the marks.

Mark Fowden of Ashby Improving.

Mark Fowden of 2915 Fulton street is improving slowly, and his friends hope that he may soon be entirely well. It will be remembered that some weeks ago Mr. Fowden, who is a commercial traveler, was coming up from Los Angeles on the steamer Santa Rosa, when he was so seriously injured. A fixture broke and struck him in the head, causing a frightful accident. He was brought to his home in Berkeley, where Dr. Allen was summoned, who has been in attendance constantly.

A Broken Collar Bone.

Henry Waterbury, son of H. W. Waterbury, the Berkeley liveryman, is recovering from a painful injury which he received Memorial day. He was playing on Francisco street and ran into a wire fence, which struck him in the neck and threw him back with such force that his collar bone was fractured. A physician was summoned, who set the bone and did everything to relieve the pain, and the wound is now healing rapidly.

BERKELEY WOODMEN VISIT HAYWARDS.

This Order Meets in District Convention.

The Work of the Order is Progressing Most Satisfactorily.

The eleventh district convention of the Woodmen of the World met at Native Sons' Hall at Haywards yesterday at 10 a.m. The convention was composed of delegates from Alameda, Contra Costa, Santa Cruz, San Benito, Monterey and San Luis Obispo counties, fifty-five in number, representing nearly 2000 members in the district.

The convention was called to order by T. B. Robinson of Oakland Camp No. 94, and was welcomed on behalf of the citizens of Haywards by Consul Commander Jones of Cypress Camp of Haywards. P. B. Wilbert of Cypress Camp No. 141 was chosen chairman, and R. C. Vose of Old Orchard Camp No. 142 was elected secretary.

A number of matters of vital importance to the order were debated by the convention, and instructions given to the delegates to the head camps which will meet in San Francisco on August 21st.

The delegates were especially instructed to work in the Head Camp for the establishment of a reserve fund in the Pacific jurisdiction.

The work of the Head Camp officers during the last two years was highly commended, the order having increased nearly 20,000 in the Pacific jurisdiction during that time. San Jose was chosen for the place of the next biennial district convention.

The following were elected delegates to the Head Camp session at San Francisco: Judge F. B. Ogden of Oakland Camp No. 94; E. Q. Turner, of Peralta Camp No. 123 of Berkeley, H. B. Smith of Alpha Camp of East Oakland, and R. D. Hollister of Watsonville Camp, No. 82. As alternates, F. Storer of Elm Camp, Elmhurst, Crittenden of Eucalyptus Camp of San Luis Obispo, Borland of Martinez Camp, Frank Smith of Maple Camp of Centerville.

The following were present as delegates and alternates from Peralta Camp, No. 123, of Berkeley; E. Q. Turner, E. T. Harms, P. Salisbury and J. E. Little. They returned to Berkeley full of praise for the hospitality of the good people of Haywards, where they were royally entertained at a ball and banquet last evening, preceded by an excellent musical and literary program. They are also jubilant in having been able to encompass the election of our fellow townsman, E. Q. Turner, to the Head Camp of the Woodmen of the World.

The Alert-Colts Game.

The Berkeley Baseball grounds will be opened on Sunday next with a game between the San Francisco Alerts and the Berkeley Colts for a side purse of $25. The teams line up as follows:

Alerts — Byrns, catcher; Bell, pitcher; Brockoff, first base; Raymond, second base; Quinn, third base; Downing, shortstop; Ortet left field; Miller, center field; Krelling, right field.

Colts — Brown, catcher; Bush, pitcher; Haggerty, first base; Connolly, second base; Streib, third base; Spencer, shortstop; Buckley, left field; Offee, center field; Mencke, right field.

Methodist Camp Meeting.

"Beulah," the Scene of a Spiritual Feast.

A Grand Camp Meeting, under the auspices of the Methodist church, will convene at the beautiful Beulah Park, East Oakland, on Friday of this week.

The season of the year and the beauty of climate will insure a liberal attendance, and every convenience possible has been provided for those desiring to camp upon the grounds, and those interested will be pleased to take notice of the excellent accomodations afforded by the Association.

The convention will continue 8 days and each day has a program which pretends an interesting discussion of topics assigned, and many of the most notable speakers on the coast have assignments upon the daily programs.

The leading feature of the assemblage will be the presence of the world-famed evangelist, Charles N. Crittendon, whose efforts in philanthropic and charitable channels are legion. Mr. Crittendon has made previous visits to the coast, which were signalized by the awakening of much interest among the people, and his reappearance augurs a most fruitful campaign.

In addition to Mr. Crittendon the efficient services of Dr. Dille, Revs. John Kirby and R. T. Needham will be rendered, and all Berkeleyans purposing to attend will be amply repaid for the wealth of intellectual impartations that will be the result of the presence of such able men. The easy access of Beulah Park from here will be an additional cause of a large contribution of our people.

Responding Promptly.

Donations are coming in rapidly for assisting the Red Cross Society's canvass for shoes for the men at the Presidio.

The soldiers have heard of the effort being put forth by the local society and have expressed words of appreciation which was conveyed by the ladies who so thoroughly solicited for towels, soap and necessary accommodations for the bath.

In response to the solicitation made by the GAZETTE yesterday, some twenty pairs were subscribed and more coming in, which indicates that Berkeleyans are not yet tired of aiding this worthy cause.

A U. C. Student Graduates From the College of Pharmacy.

Herman Henry Siebe, son of Captain Siebe, graduated last evening from the College of Pharmacy in San Francisco. Mr. Siebe graduated from the University of California in 1896.

He has volunteered as hospital steward in the Sixth United States Volunteers.

Funeral of Mrs. Gregson.

The funeral of Mrs. Anna P. Gregson was held yesterday at 2 o'clock, from her late home in North Berkeley. Mrs. Gregson was 68 years of age and a native of Maine. She leaves a husband.

Simple services were conducted at the house by Dr. John Coyle, after which the remains were interred in Mountain View Cemetery.

A Matter of Great Importance.

The Consideration of an Ordinance Establishing Fire Limits.

There is much satisfaction expressed by the citizens of Berkeley in having the municipal affairs in the hands of men of activity and thorough business like methods. A suggestion to the Honorable Board of Trustees is always given a due consideration, and they are men who seek to feel the popular pulse and keep pace with the times

The recurrence of an accident similar to the one sustained on Alcatraz avenue a few weeks since when the property owners of that beautiful portion of our citizens were pitiably at the mercy of the devouring flames, is beyond question. The Council are considering the introduction of telegraphic communication in signaling fires, and when they are justified by the accumulations of the public funds they will make desired improvements.

The Trustees, with their characteristic perspicacity, desire to forestall any question as to where the responsibility of the burning of some of the residences should be placed, by establishing a fire limit and systematically dividing the city into sections and definitely locating boundaries.

The members of the Board of Trustees will meet this evening at 8 o'clock in the office of J. J. Mason, near the postoffice, for the purpose of considering an ordinance establishing fire limits in Berkeley. Citizens interested are invited to be present.

Now is the time for every citizen wishing to be heard upon this important question to have his utterance, and if there are claims of any section of the city which the citizens directly interested in are afraid will not be properly represented by our efficient Town Trustees, this is the seasonable time to present such. If the limits as established at tonight's called session, where citizens are asked to co-operate, do not suit our citizens, they can but feel their own responsibility in the matter, and all will agree that the course pursued by the Trustees in asking the co-operation of the citizens is a just and honorable one.

Promoted to Chief Cook.

Mr. Alonzo Johnson, most commonly known as "Pete," cast off camp duties yesterday morning and spent the day among his old acquaintances and relatives in West Berkeley. Mr. Johnson, as our readers were informed in the GAZETTE last week, passed a fine examination and entered the Fourteenth regulars. Since enlisting the commander has been frequently observant of Mr. Johnson's inate ability, and has at last promoted him to the position of regimental cook. From what Mr. Johnson knows of the epicurean art and his fondness for good dishes, he will serve the regiment in a way that cannot be duplicated by any French cafe. Mr. Johnson remained until the late evening train, when he returned to resume his regal capacity at the kettle and coffee pot.

EVERYBODY may just as well get ready for a movement at Cuba that will astonish the military circles of the world.

THE lost opportunity of the ex-wheat king. Leiter, was in not giving the government a few hundred thousand dollars before his pile was Lighter.

GERMANY is not growing as desperate as some people imagine. She knows that as sure as "the Dutch have taken Holland," just so sure the Americans have taken the Philippines.

DON'T advertise your religion on circulars and billheads, but mix it with all your dealings in a way to convince your customers that you have something that is not taught at a commercial college.—Cream.

THAT savage, called Blanco, is taking unnecessary risk for himself and the Spanish government by refusing to give up Hobson. A crushed strawberry will be worth more than Blanco's hide inside of sixty days.

IF the Democrats of this State want "Dennis" Maguire for their candidate for Governor nothing should be allowed to prevent his nomination. His little vote against Hawaii is a matter of no moment or concern to California Democrats, for the more sugar Maguire has the less the party will have to supply.

SENATOR WHITE is now doing Hawaii with his little typewriter. He should remember Weyler, Blanco and Barnabe. He declares in a letter to the Chronicle that he will not permit himself to be instructed outside of his conscience, but those acquainted with Steve know very well that his conscience always runs toward the largest fee. If he gets more sugar than salary then he, according to his conscience, in action, must vote against annexation.

THE Examiner has fearful foreboding of a calamity befalling the Republican party of this State in the approaching campaign; it is to be the capture of that party by the Southern Pacific Railroad Company, bottled a la Sampson, as it were. Of course this Democratic solicitude is kind, but gratuitous, and in view of the fact that the Democrats are likely to lose their brothers-in-law: the Populists, in this campaign, some counter-irritant must be applied by the family doper, the Examiner. The trouble in the present instance is that this old fakir has put the poultice on the wrong party.

Confident.

"Well," said the new recruit, "it's a satisfaction to know that I'm in perfect health."

"You think that the examination shows no doubt of that?"

"Yes, sir. Of course, I realize that human judgment may err. But leaving the opinion of the physicians aside, a man has got to be in good shape to get through that ordeal without nervous prostration."

SHE IS COMING IN.

The Newland's Hawaiian annexation resolution passed the House yesterday by a majority of 118, the vote being 209 to 91. Members were hearing from their constituents, and consequently their hold on the rope of molasses melted rapidly away. "Our Tom Reed" was absent from his chair "by illness" which in this case don't mean madness, but sickness; and so, the gentle hints that had reached Washington were duly considered and approved accordingly. Maguire of California was the only man of the Pacific Coast delegation who voted no. His constituents should now change his cognomen to "Dennis."

It is very probable that when this measure comes up in the Senate the victory of yesterday will have the effect to give it a majority much larger than has ever been accredited to that body. President McKinley has, through wise diplomacy and earnest effort, secured a victory for annexation in the face of great odds, and he will be spared the resort to his constitutional right of annexing Hawaii by proclamation as a war measure.

ACCIDENTS AND NEGLIGENCE.

The verdict of the coroner's jury in the case of Mrs. Anna L. Snyder, who was run over by the Berkeley train at Golden Gate last Sunday and subsequently died, contains this clause: "And we do further find that said death was due to negligence on the part of the railroad company, in not having a sufficient number of men to properly attend to the train."

This casualty is a most unfortunate one. The testimony of Conductor Morris and Brakeman Wilkins was given to the jury in a manner that clearly indicated that they were telling all they knew in the matter, and whatever was due to negligence must have been on the part of the company for lack of a sufficient force with which to operate the train. These trains make quick and short stops, owing to limited time; the excuse offered for using the gates is that passengers have a disposition to get off on each side of the train, and therefore requires enough trainmen to lookout for both sides, regardless of the stations or regular places for passengers to leave, or board, the trains. In the case of Mrs. Snyder it is admitted that she alighted from the side of the train opposite the station, consequently was not observed by the employee giving the signal to go. Had the gates been closed and watched, as they usually are on the Oakland run, the lady would have left the train in full view of the person giving the signal; but we all cry out against the gates—we want to get off where we please. The railroad company, no doubt, wants to accommodate the public, but in doing so it appears very clear that there must be rules and they must be observed; if gates are to be used they should be properly closed and fastened and opened at the right time and place. If gates are not thus used they should be taken off entirely, and then the question arises, should the company put on a force large enough to watch all the cars, on both sides, and let passengers get off where their fancy dictates.

There are times during the day when travel is nearly all one way, and trains returning are almost empty; at these times the few who board them want to take their choice of the whole number, and some even want to be alone—have a private car. Trainmen have to submit to it, apparently, for what else can they do; if we can't board the car we want you'll hear from us. So, it is clear there are questions and sides to questions quite numerous, and while the people have some rights the railroad company has a few. And perhaps the only business-like way will be for the company to adopt the best methods and make the best rules possible, and then strictly enforce them, even in the face of some objections, for by this method the life of even the objectors may be longer preserved.

SENTIMENT AT PUERTO RICO

A Widespread Feeling In Favor of Annexation by America.

Dr. Alberto Costello, a former Puerto Rican and now a resident of New York city, who was in Washington recently, received a communication from a friend in San Juan telling of the escape from military prison of Dr. Jose Stoll. The latter was arrested just prior to the declaration of war by the United States against Spain on the charge of conspiracy, and together with several others was tried for treason. Being considered the ringleader of the conspirators, he was sentenced to be shot, but exerted sufficient influence to secure a rehearing of his case by appeal to Captain General Macias, the military governor of the island. The others were sentenced to long terms of imprisonment, but it is believed that one or perhaps two whose names are not known escaped with Dr. Stoll. The latter was awaiting his second trial when he eluded the guards and is thought to have made his way to the coast a short distance outside of the city, where he embarked in a small boat and is now believed to be in Santo Domingo. The impression is that he received aid from the outside in effecting his escape.

The letter states that a large majority of the people of Puerto Rico are in sympathy with the United States and Cuba, which they desire to see independent, and would not oppose having their own island annexed to this country. All this sympathy is silent, as no one dares to openly express himself, fearing arrest and imprisonment on charges similar to those preferred against Dr. Stoll. Since the outbreak of the war persons guilty of the slightest suspicion of treason to Spain have been thrust into prison, and during the past month at least 200 such arrests have been made. Among these were a number of women, some of them well known ladies of prosperous families. All that is needed to throw the inhabitants into an open rebellion against Spain is to have the United States seize the island, which they are looking forward to and expect at any time.—Washington Star.

PATRIOTIC AERONAUTS.

They Are Eager to Serve Their Country In the Balloon Corps.

The war has caused many aeronauts to besiege their representatives in congress for chances to enlist in the balloon corps. Representative Champ Clark of Missouri has one of these aeronauts in his district. About as soon as war was declared Mr. Clark received a letter from this aeronaut, Neal Brayton by name, who desired to offer his services to the government. Mr. Clark referred the letter to the officers of the signal corps and promptly received a formal acknowledgment, which was in turn forwarded to the constituent in Missouri. A few mornings later the aeronaut appeared at Mr. Clark's door, without a penny in his pocket, and announced his expectation of receiving a job immediately. Mr. Clark paid the visitor's bills in town for several days, in the meanwhile urging the acceptance of the balloonist's services. The officials declared that there were no places for balloonists, but Mr. Clark persisted, on the plea that he would have to pay his constituent's railroad fare back to Missouri, and the corps finally decided to take Mr. Brayton in, and, much to Mr. Clark's delight, the balloonist has proved himself a valuable man. He has a record of about 300 ascensions in Missouri and is eager to distinguish himself in the service of his country.

Representative Otey of Virginia likewise has a constituent who is an aeronaut. He is the proprietor of a so called torpedo balloon. He is Marcellus French of Houston, Halifax county. Mr. Otey visited the navy department the other morning in an effort to induce the ordnance bureau to give the device a trial.—Washington Post.

General Wheeler's Remedy For Insomnia.

General Wheeler, so a friend of his tells me, has a remedy for insomnia which is guaranteed to make one sleep even in the midst of war's alarms. General Wheeler, so his friend tells me, although he is from the south and knows good liquor when he tastes it, seldom takes a drink during the day, but at night when he is ready to go to bed he pours out a mug of beer, stirs into it a little salt, and after that—after that the very next thing, so far as he knows, is the breakfast bell.—Washington Post.

COMMANDER BROWNSON.

HOBSON'S STAND AT SCHOOL

His Cousin Tells How He Showed His Metal When Ostracized.

Colonel J. P. Farley, commandant of the Allegheny arsenal, is a cousin of Lieutenant Hobson, the hero of the Merrimac affair. In an interview the other night Colonel Farley said:

"Lieutenant Hobson is a brave man. His courage was well attested when serving as a midshipman at the Naval academy at Annapolis. Acting as cadet captain of a gun crew, he reported one of his classmates for some breach of discipline, which the class as a whole resented and for a time ostracized him.

"Hobson carried himself with such dignity under the circumstances that all others not of his class admired him, and when on the point of graduation a committee of his classmates waited upon him for the purpose of extending good fellowship. Cadet Hobson, while acknowledging the courtesy, politely but decidedly declined to accept any advances at that late hour from his classmates collectively. He expressed himself, however, as only too willing to meet the boys of his class individually on the following day, after graduation, and on terms of friendship."—New York Herald.

NEW ERA OF DEVELOPMENT.

Flags of Our Merchant Marine Will Follow Those of Our Warships.

Looking to the future, there is little risk in predicting that when our war with Spain shall have passed into the realm of history it will be found that we are only standing on the threshold of a new and better era in our political and commercial development. The assumption of our proper place among the great powers of the world will take away the taint of provincialism from our politics and will prove a sovereign cure for the mental and moral hypochondria which is one of the weaknesses of the national character.

The freedom of Cuba will be a glorious object lesson to other downtrodden millions of men, and the wonderful island that is soon to echo to the tread of American armies will afterward present one of the fairest of all possible fields to American merchants. In a few years we may expect to have always ready a fleet and an army with which to hold our own against all comers. We shall win our self respect by making other nations respect us, and we may be sure that the flags of our merchant marine will follow the flags of our battleships to the uttermost ends of the earth.—New Orleans Times-Democrat.

Too Slow to Suit Him.

"I really don't think we're making much progress in this war," said the old gentleman. "We've cut a few cables, but the telegraph wires still seem to be in good working order, for every other day Jim wires me that he wants $10."—Atlanta Constitution.

"Beauty and Power." The secret of a woman's power is in her complete womanliness, both physical and mental. This does not mean perfection of outline nor regularity of features. It does not mean wit, nor talents nor accomplishments. It means that physical attractiveness that comes from perfect bodily condition and the bright, happy cheerfulness of disposition which only complete health can insure.

A woman with a bright eye, clear complexion, mantling color in the cheeks and buoyant elastic step and manner, has a natural attractiveness that no artificial agency can counterfeit.

A woman who is afflicted with the mortifying misfortune of a dull, sallow, pimply complexion or that listless movement and attitude which provokes only disgust and revulsion in the opposite sex, ought to avail herself of the purifying, invigorating power of Dr. Pierce's Golden Medical Discovery, which makes a strong, healthy stomach and digestive organism; purifies the blood and imparts a natural stimulus to the excretory functions; insures healthy weight, clear skin, bright eyes and the animated manner and bearing of perfect health.

A lady living in West Virginia, Miss Anna Callow, of Kyger, Roane Co., writes: "It is with pleasure I write you after using a few bottles of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Discovery,' and I think them valuable medicines for female troubles and weaknesses. I could hardly go about my work I had such inward weakness and constant misery in the womb. It worried me so that I would give out in walking a short distance. I had a bad cough and my lungs hurt me all the time. I got very thin, my complexion was bad, and my eyes would get so heavy in the evening they seemed stiff in the lids. I could hardly move them. Many persons were alarmed about me, I looked so bad and had such a cough; they were afraid I would go into consumption. I felt so badly every day that I had no life about me. I used only five bottles in all. I shall ever speak in praise of your grand medicines. They are blessings to suffering females."

Another good thing to have in the house is a vial of Dr. Pierce's Pleasant Pellets. They cure biliousness and constipation and never gripe.
